Scouts Route Planning – Broughton to Ullesthorpe

Use the grid references below to plot the Bases you will visit and the route you will walk between them. Take the shortest route prioritising walking on footpaths rather than roads.

You will get 10 minutes to do as much of this as you can – you will get 10 points per correctly marked point with the correct route taken to reach that point – if you do not mark the route on the map correctly, you won't get the points!

Don't worry, if you get some wrong you will be given a correct map before you leave! Good luck!
